OUR TECHNOLOGY

120 hours moisture retention clinical test complete in IRSI, USA

Non-drying patented hydration ingredient AMF120+++

AMF(Artificial Moisturizing Factor)?

It is complex nanoparticle certified by IRSI for the moisture wrapping effect for 120 hours;
IRSI is a special medicine and cosmetics clinical testing agency in the U.S. It is a new technology replacing natural hydration particles, which determine skin hydration sustainability, used by Ultru only.

**120 hours
moisture retention**

**Powerful
moisture absorption**

**Powerful
moisture adhesion**

**Reduction of moisture
evaporation speed**

New skin detoxification solution from daily toxicity and skin stress

Have you ever considered the impact on your skin due
to a variety of daily activities to enjoy for a short healing?

Are you not bearing with the stress your skin gets despite knowing and feeling?

Ultru is the brand
that takes a closer look at your daily life.

We propose a new skin detoxification solution
for stressed skin from toxic elements in urban areas
and from various addictions in daily life.

Don't feel sorry. Leave it to us.

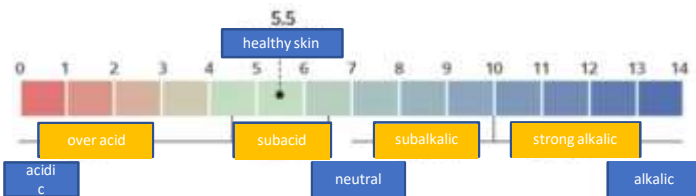

WHAT WE MAKE

What is pH of healthy skin?

Why do you need to use pH 5.5 masks?

Natural balance of healthy skin is pH 5.5!

When we use cleansers with chemical compounds for washing our skin pH balance rises and it causes skin irritation. As mask packs are usually used right after cleansing if you use pH 5.5 mask pack when pH balance is at its highest level it relieves irritation and makes skin healthy.

Best pH balance for healthy skin

pH 5.5 BALANCE

Formula of I'm Sorry For My Skin pH 5.5 mask pack maintains oil and water balance and soothes irritated skin, returning skin to its naturally healthy condition.

pH BALANCE <5	pH BALANCE 5-6	pH BALANCE >7.1
OILY SKIN	NORMAL SKIN	DRY/TROUBLE SKIN
